

## Touch*FREE* Service Call

With our Touch*FREE* Service Call, you can rest assured that your garage door is repaired while not coming into contact with a technician.

How it works:

You can either book by email or by calling 913-422-0441, once we are on our way to your home, you will receive a text notification, all you have to do is open the garage door. Once we arrive, we will evaluate your door system and send you a text message with our findings, along with any pictures (if applicable). You simply reply back to approve the repair and we will get right to work! Once we are done with your repair, we will disinfect the wall station, keypad, and any remotes left for us. We will send you a notification that we are done so the door can be closed behind us. You can pay the tech over the phone with your credit card! It's that simple!

The Touch*FREE* Service Call is a **FREE** option that any customer can ask to have added to their standard Service Call at

time of booking.
